Hazelton - USP
P.O. Box 5000
Brunstonville, WV
26525

The Executive Staff and his Special Housing Unit Staff are engaging in a sadistic practice of cruel & unusual punishment that is forbidden by the Eighth Amendment. These Acts stain the moral fabric of the Constitution since they are performed under the color of law with deliberate indifference and thus creates a manifest injustice against the Human Rights of the individuals confined in the Special Housing Unit. No different for lockdown.

US individual lockdown in the Special Housing Unit at USP Hazelton are totally restricted from the outside world besides family and love ones since we are provided with no radio, no newspaper, no books and thus have no understanding outside the walls in which we are confined. We are subjected to deplorable living condition with the lack of sanitation because cleaning supplies are only issued once every 21 days upon cell rotation.

The hygiene kit which is passed out falls below the objective standards of reasonableness since it consists of a ball of liquid soap the size of fireball candy every three days that can only be used for one shower setting.

And since it is only enough soap to wash my body three times a week there is no extra soap to utilize and properly wash my hands After I defecate or urinate on the other four days, which poses an severe health problem because it is almost impossible to not obtain feces on my hand After I defecate in my attempt to use the sixteen 3 X 3 square pieces of tissue paper that are issued to wipe myself with After using the toilet, with the same uncared hand I am expected to use an finger brush into my mouth in an urinate attempt to clean my teeth. I am forced to try to eat with an unstable paper spoon which creates an unsanitary mess due to lack of cleaning supplies and soap to sanitize the living quarters. Then to add insult to injury my physical health is falling and deteriorating now I am confined 24 hours to my cell with no recreation wherefore my only physical activities consist of sleeping & showering.

Accordingly because of the Executive Order attempt to systematically exclude me from the Inmate Grievance and the Administrative Remedy process I petition this Honorable Court for redress to stop the degrading Cruel & Unusual Conduct that exist at USP. Hackett for plus to uphold my dignity and rights that the Constitution affords me.
